INTRODUCTION

In the fast paced and ever evolving world of crypto, where memes shape markets and communities drive value, one token emerges with the perfect blend of internet culture and real blockchain utility. Introducing STONK PEPE, better known as \$SPONK.

SPONK is inspired by the legendary "STONK" meme that took over the internet, where stock charts always go up and everything pumps. We've taken that spirit and merged it with the one and only Pepe the Frog, launching him on a rocket to show exactly what we aim for: prices soar, communities go wild, and SPONK goes to the moon.

This isn't just another meme coin launched for laughs. SPONK is built with real tech, a clear strategy, and a solid team of crypto lovers, meme wizards, full-stack blockchain developers, and growth-focused advisors. SPONK is built to thrive where virality meets value.

At its core, SPONK was born from a simple belief: memes move markets, and when you combine that with a solid foundation such as tokenomics, utility, liquidity planning, and community-first governance, then you don't just go viral, you go STONK.

The project embraces its memetic roots while pushing toward a scalable future, complete with staking pool rewards, gamified features, and plans for utility across NFTs, decentralized exchanges (DEXs), centralized exchanges (CEXs), AI-powered trading tools, and cross-chain bridge plans to keep the ecosystem versatile and scalable. Every component has been engineered with longevity and explosive momentum in mind.

Our goal isn't just to ride the next pump but to create a lasting movement backed by memes, fueled by real tech, and steered by an unstoppable community. With transparent tokenomics, a community-is-king approach, and a roadmap engineered to deliver both entertainment and utility, SPONK is primed to make waves from launch day and beyond.

Whether you're an OG degen or a curious first-time investor, seasoned trader, or just vibing with the future of fun finance, we invite you to ride with SPONK, aim the moon, watch your bags go green and make every chart look Always STONK, forever SPONK. Let's go.

VISION

At SPONK, we believe the future of finance is built on community, creativity, and culture. Inspired by iconic memes that have united millions online, we envision a blockchain ecosystem where fun meets functionality, memes create value, and community rules. SPONK is designed to become a global movement, empowering investors to participate in a meme driven economy backed by real world technology and genuine utility.

MISSION

Our mission is simple yet powerful: create a meme token with genuine utility. SPONK isn't here for a quick pump or a fleeting trend. We're here to build something lasting and meaningful. We're dedicated to delivering tangible benefits to our holders by offering robust staking rewards, AI-driven trading bots for constant token demand, vibrant NFT and gaming integrations, and seamless cross-chain solutions.

Every piece of the SPONK ecosystem is built carefully and strategically, ensuring holders are rewarded, the community is empowered, and the token's value keeps growing. At SPONK, we don't just want you to join, we want you to thrive.

WHY SPONK?

In a sea of crypto projects, SPONK stands tall.
Here's why investors and crypto enthusiasts choose us:

Community is King

At SPONK, community means everything. Holders don't just invest; they shape the direction, benefit from governance, enjoy rich staking rewards, and drive exciting community projects.

Real Utility, Real Tech

We blend meme magic with powerful blockchain technology and innovative AI-driven tools. SPONK creates lasting value through smart tokenomics, continuous buyback and burn strategies, and real-world utility.

Transparent Tokenomics

Our tokenomics are straightforward and designed for success. Early adopters are rewarded, liquidity is maintained, and long-term holding is incentivized. With SPONK, what you see is what you get—clarity, fairness, and smart economics.

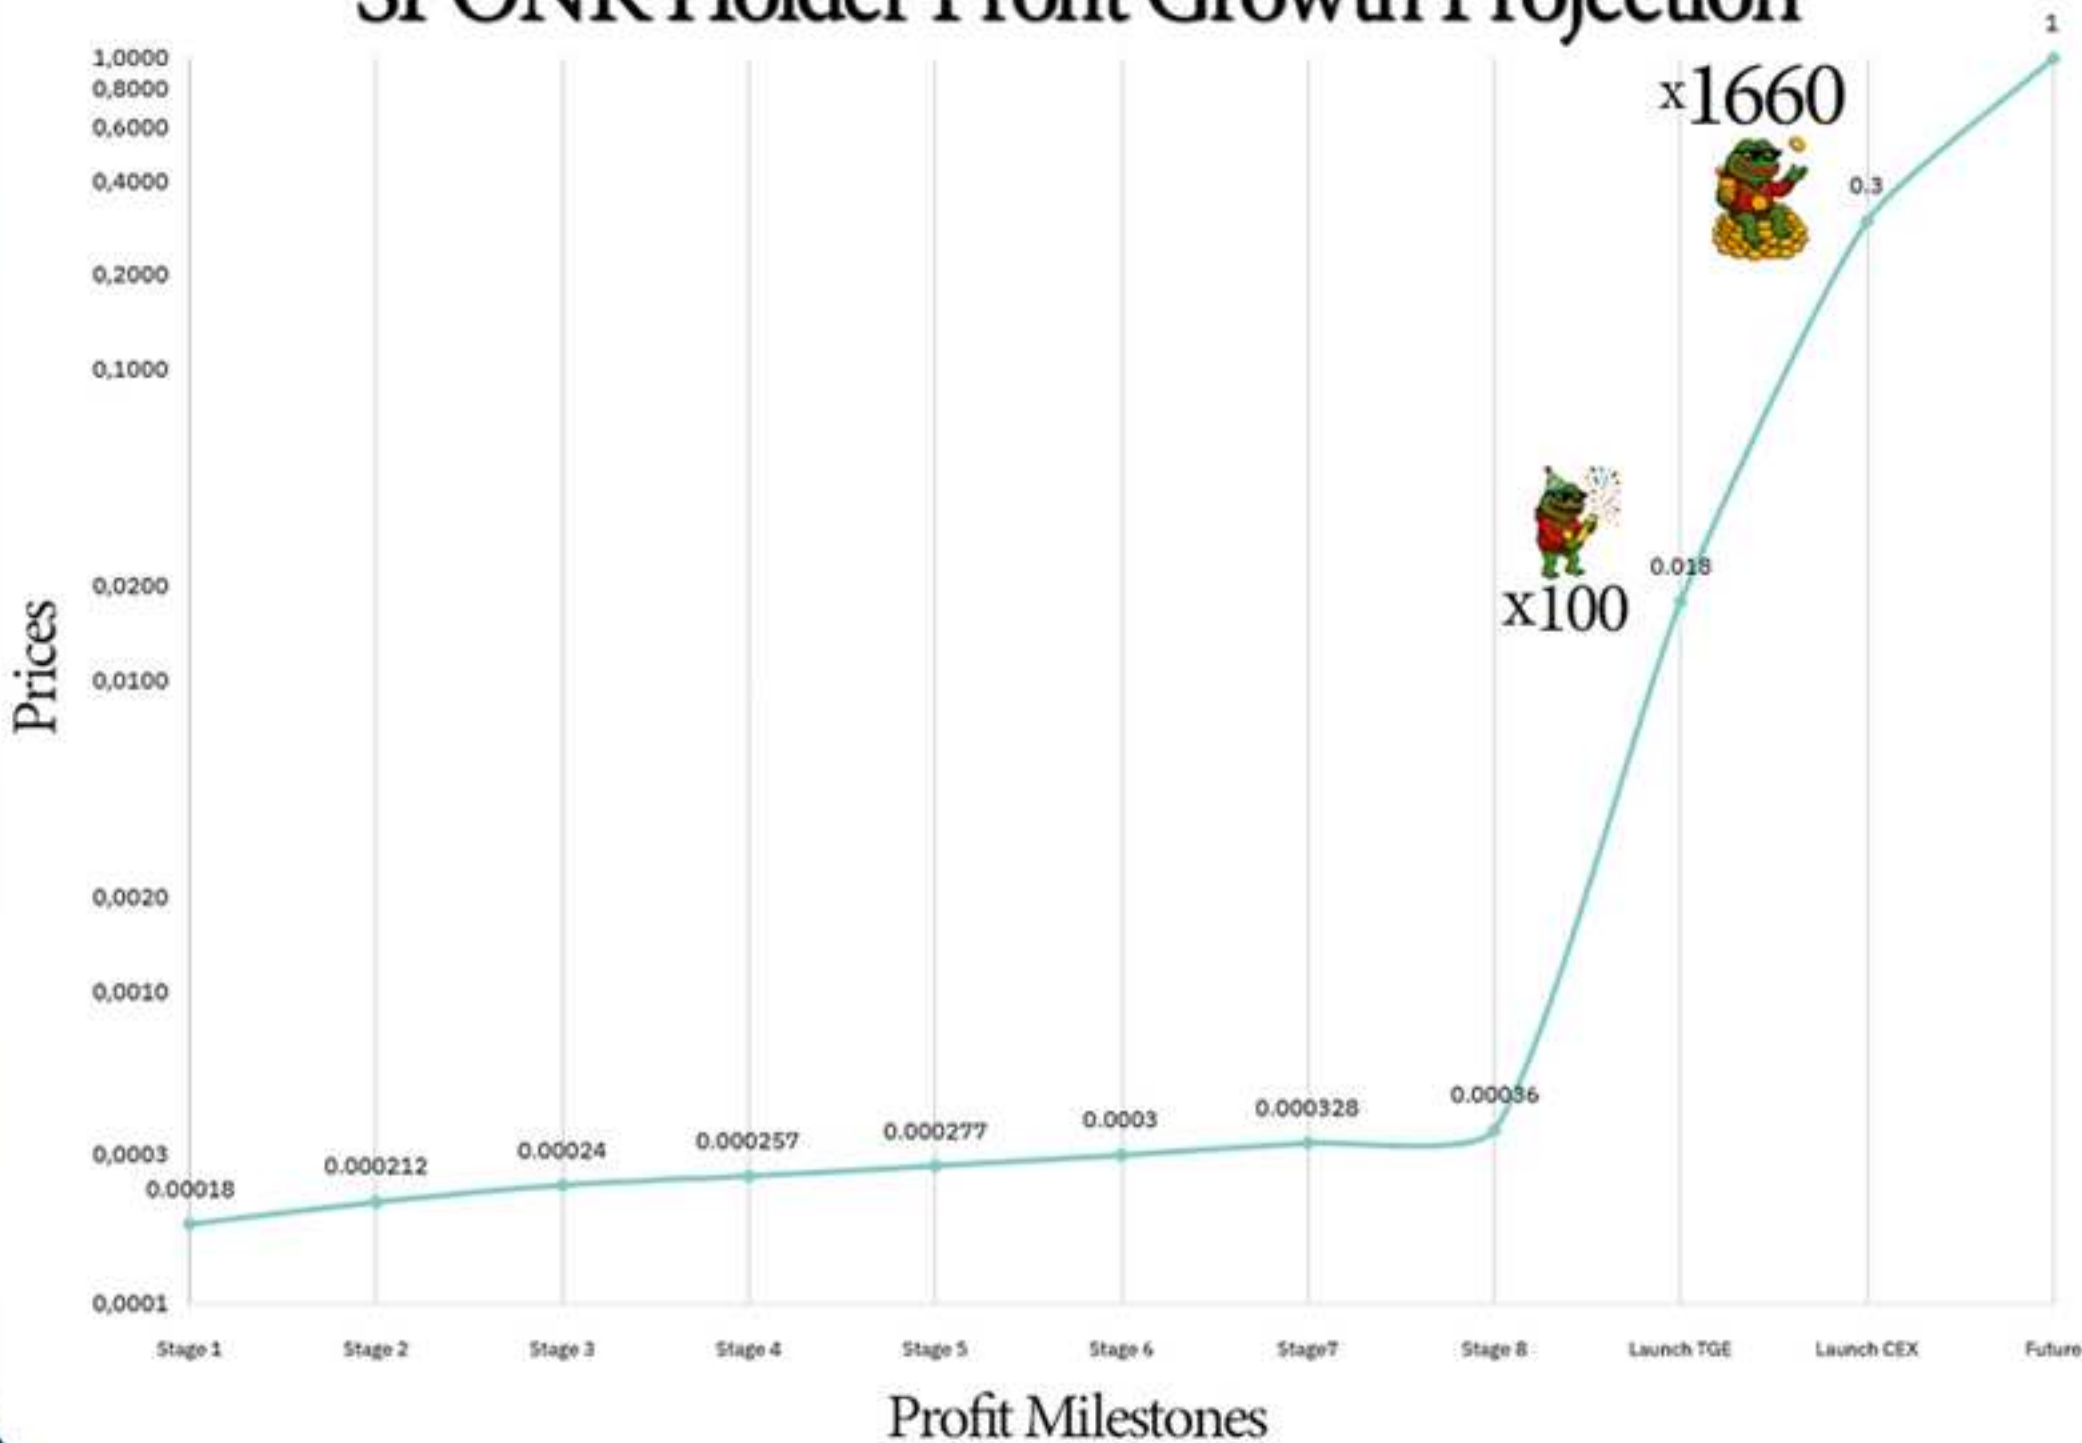

Strategic and Scalable

We have a clear roadmap from presale to global adoption. SPONK's plan includes DEX launches, high profile centralized exchange listings, global brand partnerships, and strategic marketing pushes that ensure steady, sustainable growth.

Memes with Staying Power

SPONK doesn't ride temporary waves; it creates its own. We're building an ecosystem that's vibrant, sustainable, and scalable, turning meme culture into long-term financial and community momentum. Not just another pump. \$SPONK is built to STONK, for real.

SPONK Holder Profit Growth Projection

Early presale buyers are guarantee for MINIMUM 100x profit at launch TGE, meaning \$100 become \$10,000. If you are diamond hand and hold until CEX listings, the potential profit increases to 1660x, so \$100 become \$166,000.

TOKENOMICS

SPONK tokenomics aren't just numbers, they're the blueprint for our success, growth, sustainability, and maximum meme potential. We carefully designed every allocation to ensure fairness, strong liquidity, big rewards, and long term success for our community. Here's how the total supply of 20 billion SPONK breaks down:

Total Supply	:	20.000.000.000
Initial Circulating Supply	:	3.500.000.000
Initial Market Cap	:	\$63.000.000
Fully Diluted Market Cap	:	\$360.000.000
Stage 1 Presale Price	:	\$0,00018
Listing Price Dex	:	\$0,018
Listing Price Cex Target	:	\$0,3

Team & Development: 12%

Reserved for our rockstar team of meme experts, blockchain devs, and strategic advisors. Tokens locked for 12 months, then gradually released 1% monthly over the following year. We're here to build and stick around, not sell and run.

Liquidity Pools: 25%

A strong meme token needs deep liquidity from day one. 25% is dedicated entirely to DEX and CEX liquidity, keeping \$SPONK trading smoothly and making sure everyone can buy and sell easily without worrying about price slippage.

Presale Investors: 25%

Early believers get rewarded big time. Allocated exclusively to early investors who recognize SPONK's massive growth potential and want to secure substantial profits from the beginning. Being early means the highest potential returns and the most attractive entry price. Early birds always win.

Marketing & Growth: 8%

Reserved to spread SPONK fever across social media, influencers, meme culture channels, and global crypto communities. When SPONK trends everywhere, you'll know why.

Treasury & Strategic Reserve: 5%

Set aside for future strategic needs like bridging to other chains, buybacks, expanding onto major centralized exchanges, and supporting long-term community growth.

Staking & Rewards: 15%

Hold SPONK and earn attractive rewards, it's as easy as that. Our staking and rewards allocation fuels community growth, airdrops, NFT integration, and in-game rewards, all carefully built to make your SPONK holding even more rewarding.

Ecosystem & Burn: 10%

Burn, baby, burn! Regular token buybacks and burns will keep the SPONK supply deflationary, ensuring the token stays valuable and attractive long-term. This allocation also supports strategic partnerships and ecosystem expansion.

With SPONK, we didn't just create another meme but we carefully designed the tokenomics to make sure every community member wins, our memes stay powerful, and our tech stays relevant.

*Tokens for our Liquidity Pools are Locked for 36 months and then released at 1% per month to prevent rugpull
*Tokens for Presale are available 50% at TGE (Token Generation Event) and the remaining 50% after 14 days, ensuring steady price growth and protection against whale early dumps

ROADMAP

Phase 1: Foundation & Launch Preparation

1

- Finalize smart contract logic, tokenomics structure, whitepaper, and overall project strategy.
- Assemble the meme dream team: blockchain devs, marketing pros, and advisors with skin in the game.
- Launch official website, Initiate community channels, kick off early marketing campaigns & KOL partnerships.

Phase 2: Presale & Infrastructure

2

- Roll out presale across all stages with increasing community members as holders.
- Integrate web3 dashboard to track investor purchases and presale token allocations.
- Conduct professional smart contract audit and infrastructure backend stress testing.
- Close the presale event, prepare SPONK token allocations for early investors and finalize liquidity, staking pools, and launch parameters.

Phase 3: DEX Launch, Community Activation & Exchange Listings

3

- Ramp up media exposure, community events, and pre-launch engagement to ensure early presale investors gain maximum revenue prior to decentralized exchanges (DEX) launch.
- Liquidity pool provisioning and deploy \$SPONK on decentralized exchanges (DEX).
- Launch staking pools with multi asset rewards (\$SPONK, \$ETH, and \$BTC) for true believers.
- Start post-launch campaign with meme-fueled influencers to help ensure SPONK goes STONK for new DEX buyers and boost engagement prior to exchange listings.
- Secure multiple Tier 1 and Tier 2 centralized exchange (CEX) listings for wider access.
- Ensure early presale investors and buyers from DEX benefit from the biggest possible revenue multiplier at centralized exchange (CEX) listings.

Phase 4: Utility Layer & Cross-Chain Expansion

4

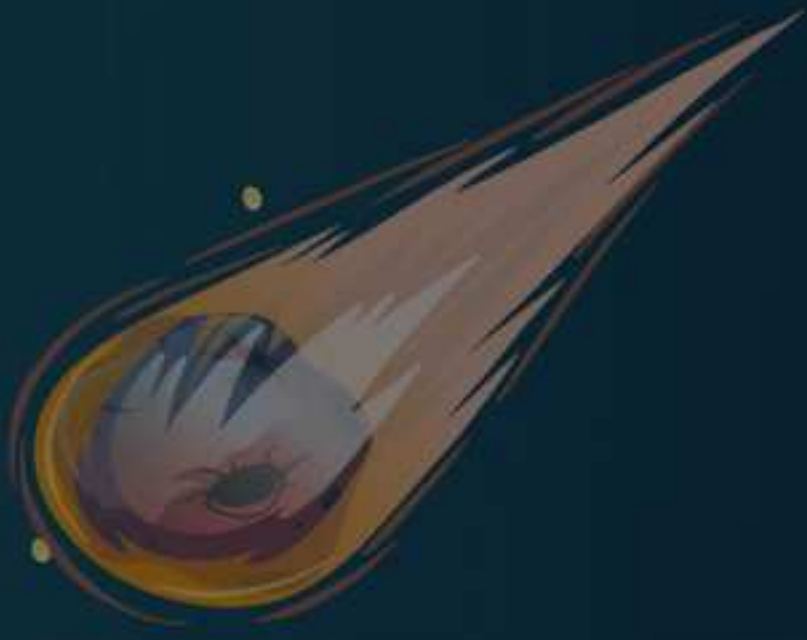

- Finalize and deploy ETH to BSC bridge with 1:1 swap and zero-tax cross-chain support.
- Initiate quarterly token burns to support deflationary supply and help boost the price of SPONK.
- Deploy AI-powered SPONK Trading Bot with buyback-burn mechanism.
- Begin integration with games and NFT platforms using \$SPONK for in-game item purchases, marketplace support, NFT trading and airdrop rewards.

Phase 5: Branding, Governance & Mass Adoption

5

- Partner with esports, sports teams, and cultural brands for mass exposure.
- Expand with additional centralized exchange (CEX) listings as liquidity and volume grow.
- Introduce a DAO (Decentralized Autonomous Organization) to support community governance, treasury management, and strategic decision-making.
- Launch new SPONK-backed meme and utility projects with community voting on direction.
- Transition into a long term growth phase supported by the SPONK community.

From presale rocket fuel to cross-chain domination, the SPONK roadmap is more than just a plan. It's a mission to turn every meme into momentum and every holder into a legend. Buckle up, we're just getting started.

FAQ

Question

What is STONK PEPE (SPONK) ?

Answer

SPONK is the ultimate meme-powered token that combines internet culture with real blockchain utility. Inspired by the iconic "STONK" meme and our green frog hero Pepe riding a rocket, SPONK is built for those who believe memes aren't just jokes but they move markets. With a solid team, powerful tokenomics, staking rewards, future AI tools, and cross-chain expansion, SPONK is more than just a token. It's a movement that turns virality into value.

Question

Why should i invest in SPONK ?

Answer

Because you want to get in early on the next big thing before it explodes. SPONK offers early-stage presale access with a chance to multiply your bags before launch. It's backed by strong tokenomics, a growing community, and actual utility not just hype. Whether you're here for the memes, the tech, or the potential x100 gain (even x1660 when major CEX listings), SPONK is built to stonk, and early believers get front-row seats.

Question

When will I be able to claim my SPONK tokens from the presale?

Answer

After purchasing SPONK from our website, your token allocation will be visible on the Dashboard website page. Tokens won't be sent to your wallet right away. Instead, they'll be held securely until the official launch. You'll be able to claim your SPONK directly from the website once we go live.
